

Canon

LBP-3260

HIGH PERFORMANCE

DEPARTMENTAL PRINTER

Specifications LBP-3260

- Printing speed:** 32 ppm/A4, 18 ppm/A3
Resolution: 600 dpi x 600 dpi
Smoothing Technology: Canon Automatic Image Refinement
Printer Description Language: PCL® 5e, PCL® 6, Adobe® PostScript® 3™ (optional)
CPU: RISC Processor PowerPC 603e- 100MHz
RAM: 8MB standard (expandable up to 40MB)
Resident Fonts: 45 Micro Type fonts, 8 Bitmap fonts, 136 PostScript® 1 fonts (with PostScript® option)
Paper Input: *Standard:* 2 cassettes (500 sheets each); Multi-Purpose tray (100 sheets/80 g/m²)
Optional: 2 x 500 Sheet Paper Deck; 2,000 Sheet Paper Deck; Envelope Feeder
Paper Size: A4, A3, B4, Letter, Legal, 11" x 17"
Paper output: *Face down:* up to 500 sheets;
Face up: up to 100 sheets
Duplex printing: Yes, with optional Duplex Unit DU-82
Interfaces: *Standard:* IEEE 1284 parallel port
Optional: Ethernet and Token Ring
Toner Cartridge: EP-72 Cartridge/Approx. 20,000 pages (A4 at 5% coverage)
Power Requirements: AC 220-240V (50Hz)
Power Consumption: *Printing:* approx. 772W
Standby: approx. 220W
Dimensions (W x D x H): 566 x 563.5 x 540 mm
Weight: Approx. 50 Kg (excluding cartridge)

ACCESSORIES:

- Canon Ethernet Board EB-52, Emulex CAN 1000-E, 1000-T and Canon 13000-ETX • Adobe® PostScript® 3™ (Module A-72) • Paper Deck PD-82K (2 x 500 sheet) • Paper Deck PD-82 (2,000 sheet)
- Sorter S-82 (7 face down bins, 1 face up bin) • Staple Stacker SS-72 (3 bins ascending/descending type) • Envelope Feeder EF-9 (100 envelopes) • Duplex Unit DU-82 • Hard Disk Drive HD-72
- User Maintenance Kit UM-72

- 32 page-per-minute productivity
- High 600 x 600 dpi quality
- Automatic Image Refinement
- Supports PCL® 6 and PostScript® 3™*
- Up to 3,100-sheet paper capacity*
- Productive duplexing ability*
- Automatic Energy Saving
- Reduced network traffic function*
- Memory Reduction Technology

* *with optional accessories*

Taking top quality printing further, faster

Speed through all your work with the one professional, workgroup printer that is way ahead in its class. Deliver superior quality. Profit from productivity, reliability and versatility. Set the highest standards. Furthermore, Canon's new LBP-3260 printer supports everything from convenient duplexing to complete network management control.

Sensational speed. Superior quality.

An accelerated 32 pages per minute output gives you a head start with all your work. What's more, speed is matched by superior quality. A high 600 x 600 dpi printing resolution is further enhanced by Automatic Image Refinement, to smooth out jagged edges. With super fine toner producing precise results. So even small text and complex graphics look great on the page.

Memory saving technology for faster output

The LBP-3260 accomplishes true 600 x 600 dpi printing with only 8 MB of memory, thanks to Canon's Memory Reduction Technology. Complex page data is compressed to optimize available resources - saving you precious time.

Extensive support right from the start

Standard printer drivers for Microsoft® Windows™ (3.1x, 95/98, NT 4.0) allow you to control most printer settings direct from your screen. PCL® 6 support is also standard - plus the LBP-3260 is ready to support full networking possibilities. Start with two standard cassettes of 500 sheets and a handy multi-purpose tray for a variety of media, including OHP film. Then extend capacity when needed.

Reducing your overall running costs

Save energy when the LBP-3260 is not in use, simply by setting a pre-selected time period for the printer to go into power-saving sleep mode. Then the moment a new job is sent, the machine springs back into action. Economy mode can also be selected, printing rough drafts that use less toner. Saving you even more money.

Powerful performance. Fantastic flexibility.

Start with a high performance departmental printer providing quick, high quality output. Then add on accessories to meet your exact requirements. Including seamless networking across all environments and ultra productive duplexing. Plus a high capacity paper supply and full finishing features.

Accessories for every eventuality

Duplexing to double your output

Add a practical duplexing unit to your LBP-3260 printer and see productivity soar. Two-sided prints (up to A3) cut paper costs in half, while producing a professional finish for your work. It's a rare feat for a departmental printer.

Complete network connectivity

Connect multiple computers to the printer simultaneously, with easy to install network boards - for full Ethernet and Token Ring networking environments. Complete with network management software to optimize workgroup printing.

Full PostScript® 3™ power

Increase processing speed and overall printing quality, with the simple addition of an Adobe® PostScript® 3™ module. Plus benefit from a far wider choice of fonts. The module comes complete with printer drivers for all computer platforms.

Reduced network traffic

Canon's Hard Disk allows users to print multiple copies of a document from just one copy of the data stored on disk, thus greatly reducing network traffic. It can also be used for permanent storage and retrieval of fonts and macros.

High capacity paper supply

Profit from heavy-duty printing with a 2,000-sheet paper deck, fitting neatly under the printer. Or choose a 2 x 500-sheet paper deck, capable of holding different paper sizes. Both require a convenient, paper handling controller*.

Flexible finishing

Choose either a Sorter or Stapler Stacker (holding up to 2,000 sheets, with multi-position stapling) for preparing prints for immediate distribution. A practical Envelope Feeder, taking up to 100 envelopes, is also available.

** also necessary for Sorter/Stapler Stacker*
